Culminating experience: Modified majors must satisfy the culminating experience requirement by successfully completing any one of the following three options: *Senior Independent Study Project* (Sociology 90), *The Sociological Imagination* (Sociology 91), or *Honors Thesis* (Sociology 98). Because only one term of Sociology 98 counts as one of the five additional courses numbered 10 or higher that are required for completion of the major, taking a second term of Sociology 98, as honors thesis writers typically do, means that honors students will typically take an extra course credit in sociology.

Students must take four modifying courses from another department or departments. For each one
